SVN Checkout Issue

Common reported problems/issues statements:

Problem - A:

Statement - 1	pages are committed successfully on SVN but not visible on devweb4/3/2/1
Statement - 2	pages last modified date is not change on devweb4/3/2/1
Statement - 3	Pages are commited but changes are not reflected on webpage

Solution - A:

Assume -	any of above issue is reported for xyz project
Execute comm.-	*sh /cron_script/svn_checkout_<servername>.nj* [ex. svn_checkout_devweb3.nj]
	You will find exception like below while yout project is checking out. "Conflict discovered in '/opt/apache-tomcat1/webapps/xyz/QualityMarkingUtility/QualityMarkingFormBean.java"
	In this case, delete file by executing command - *rm /opt/apache-tomcat1/webapps/xyz/QualityMarkingUtility/QualityMarkingFormBean.java*
	Checkout again by executing below command - *sh /cron_script/svn_checkout_<servername>.nj*
Note:	Kindly check now, it must be fixed.

Problem - B:

Exception - 1	Working copy "xyz" locked

Solution - B:

Change dir.	cd /opt/apache-tomcat1/webapps/xyz
Execute comm.	svn cleanup
Note:	Kindly check now, it must be fixed.
